Sewerage Pumping Stations

Cleanawater supply a large range of polyethylene and fibreglass pumping stations to suit all domestic, commercial, industrial and mining applications. Our pump station solutions delivered pre-plumbed and pre-wired, making installation easy.

Save money on installation costs

Cleanawater sewerage packaged pumping stations are constructed of light weight polyethylene or fibreglass. Eliminate the need to hire specialist equipment to set pits into place or to install pipework onsite inside a small chamber, our pumping stations are supplied with plumbing and electrics all complete ready for immediate installation.

Cleanawater Packaged Pumping Stations Features:

- ◆ Single or Dual Pump Systems Available
- ◆ High flow, high head cutter, grinder and macerator pumps fitted
- ◆ Systems available complete with single or three phase pump controllers
- ◆ Remote monitoring, SMS notification systems available
- ◆ Large Range from 100 Litres to 30,000 Litre Configurations
- ◆ Compact Kitchen Under sink Pump Stations available for restaurant applications
- ◆ Pedestrian, Light and Heavy Duty Covers and grates available for all terrains

Sewerage Pumping Stations
